

BRINGING INNOVATION to educational ICT

About our solution

Performance, security and flexibility are the key criteria for modern connectivity in education. The Fluentblu comprehensive solution provides not only the speed and reliability, but it also puts control back into the hands of our customers. With its active directory integration you will have full visibility of how your school is utilising its online activity.

Why Choose Us

- + We pride ourselves on our proactive support and guidance, allowing your school to tailor-make its connectivity and security. OUR solutions are defined by YOU.
- + Top ISP partnerships ensuring every performance requirement is catered for. ADSL / FTTC / FTTP / Leased line, we have it all covered.
- + Over a decade of working in education means we understand the demands of your school, every element of our security is designed to meet the highest educational standards.

Features Include:

- Dynamic Administrator Control**
Simple, easy to use tools, providing network staff with the ability to respond dynamically to the needs of staff and pupils, removing the reliance on third parties to make changes.
- Active directory integration**
Utilising the Microsoft Active Directory connector our filtering solution simplifies the management of users, groups and policy management via your AD user profiles
- Optimised bandwidth control**
Competing traffic impacts your Quality of Service. We manage the priority of school-critical and inappropriate traffic before it impacts the Internet experience of your users.
- Unique policy management**
Define and manage network privileges based on username, groups, time, day, protocol and much more.
