

YOUR NETWORK
YOUR RULES

SECURE
FLEXIBLE &
COST EFFECTIVE

The most comprehensive and detailed reports in the industry to get visibility into exactly what's happening on your network. Security, insight, control. you've got it covered.

Our filtering platform takes the complexity out of network security saving you time, money and frustration. We offer everything you need in a single, modular platform that fits the evolving needs of your school.

Centralised Control Center

Cloud-based centralised management of all your NG Firewall deployments

See the status of your sites at a glance all in one place

Flexibly manage hundreds of sites—or just a few

View threat and alert history across sites, or drill down into a specific deployment

Reduce management overhead and associated costs

Get valuable auditing logs—key to regulatory compliance

Manage licensing, software updates, backups and more

Access to new management features as they become available—at no additional cost
