

PROACTIVE ICT SUPPORT SERVICES

OUR CONCEPT

Modern ICT is all about 24/7 access, reliability and classroom impact. This can only be achieved via proactive support and guidance. Fluentblu is much more than simply an engineer in your school and this is why-

- ✓ 24/7 monitoring ensuring proactive and preventative management of your core network.
- ✓ Comprehensive post visit documentation to provide clarity and visibility of how your network is performing, putting you in complete control.
- ✓ Disaster recovery and network penetration testing ensure you are secure and GDPR compliant at all times.

LONG TERM IMPACT

Clear curriculum improvement

ICT without a teaching and learning benefit is pointless. Our support puts teachers and pupils at the forefront of any IT advice we provide. "TECHNOLOGY WITH A PURPOSE"

Reduced long-term ICT spending

No gadgets and pointless tech, every investment made makes your network more efficient and improves teaching and learning, eliminating the need for costly and unnecessary upgrades.
